Report on Kerala Footwear Exhibition

Dubai, March 18, 2014

The Kerala Footwear Exhibition was held on 18th March 2014 at Dubai. The Expo was organized by Kerala State Small Industries Association (KSSIA), Kerala Footwear Manufacturers and Exporters Association, Confederation of Indian Footwear Industries and Footwear Design and Development Centre in association with CLE. Around 20 companies from CLE based in Kerala had participated in the Expo displaying Non-Leather Footwear.

Kerala Footwear Industry is making rapid strides over the years and has created a niche in the Indian Footwear industry. Kerala is the centre for producing Non-Leather Footwear made of Poly Urethane and is a major caterer to the domestic market in India.

The global import of non-leather footwear has shown an impressive growth over the years, occupying 48% share in the total footwear import of US$103.38 bn in 2011. In terms of value, the global import of leather footwear has increased from US$ 33.13 billion in 2007 to US$ 49.97 billion in 2011, growing at a compounded annual growth rate of 10.82% during the last five year period. Globally, the percentage of consumption of Non-leather footwear is comparatively higher than the leather footwear. Hence, the global demand for Non-Leather Footwear would continue to grow in the coming years.

In line with the increasing global demand, India’s export of Non-Leather Footwear has shown a phenomenal growth in the last five years with the export value increasing from US$ 43.49 million in 2008-09 to US$ 126.67 million in 2012-13, growing at a compounded annual growth rate of 30.63%.

India’s export of Non-Leather Footwear has increased from US$ 9.77 mn in 2008 to US$ 36.53 mn in 2012, showing a remarkable growth over these five year period.

Thus, considering the market potential in UAE for Non-Leather Footwear, the Kerala Footwear Exhibition has organized its first Expo in Dubai at Traders Hotel on March 18, 2014.
