Brief History of the company :

AKI India Pvt Ltd. Is a private limited company, incorporated in the year 1994 with the object of manufacturing and export of leather and leather goods. The company started its operations in the year 1994 with manufacturing of leather saddlery goods. After successful running of saddlery business for 13 years, the company set up its own leather footwear unit in the year 2007-08 and started manufacturing and export of leather shoes. Further in the year 2010, company decided to go in for the backward integration and planned to set up its own tannery to produce finished leather also. In this connection, AKI first purchased a running tannery in Unnao in its name and than renovated & expanded the tannery into a big and highly advanced tannery. The said company is an 100% export oriented unit and is registered as an SME. AKI India Pvt Ltd. is an ISO 9001:2008 certified company and also credit rated by CRISIL. The main promoters of the company are well educated and well experienced in the field of leather. They also enjoy an excellent reputation in the domestic and overseas market. Apart from the promoters, the company is well assisted by the team of highly professionals at administration level and skilled & experienced workforce at production & supervision level.

Annual Production Capacity :

Finished Leather 10,00,000 Sq.Ft.

Brief History of the company :

We are a 65 year old tannery based in Ranipet ,Tamil Nadu , India specializing in the production of cow and buffalo articles of finished leather. Ours is a complete raw to finished leather manufacturing facility spread over 5 acres of land. Our facility also includes a full veg leather (East India Tanning) facility producing leather in pits in a eco friendly way. Our tannery also includes a modern beam house, dye house and finishing facilities. Articles/raw materials : We produce both domestic and imported raw materials for cow articles. Cow crust calf is a repolishable article mainly used for shoe upper and is available in sizes 5-12 and 12 up in full hides in thickness 0.7/0.9 mm and in thickness 0.9/1.1 mm. This is a burnishable finish wherein there is scope for polishing once the shoe is made.We produce this article both in domestic and imported raw material. Cow fullard is a natural milled type of leather available as either fully finished or with a repolishable finish depending on the needs of the customer. We produce this article in two sizes namely size 3/5 ft in thickness 0.6/0.8mm, and size 5/10 ft in thickness 0.7/0.9mm. We also offer this article in a full veg tanned process known as " VEGATA" with polished effect.Fullard article is used both for the production of leather goods and shoes. Cow Deer Tan is available both in natural milled finish and printed milled finish depending on the clients needs. We produce this article both in hides and sides , in thickness varying from 1.0mm to 1.6 mm in big sizes. This article is fully finished and is predominantly used by bag manufacturers. Cow Joy is a haircelled economy upper available in both full grain and corrected grain finishes in thickness 1.1/1.3 mm and in hides and sides.

Finished Shoe Leather & Upholstery Leather

Brief History of the company :

Mirza's journey began in the year 1979 with a small tannery for manufacturing finished leather at Magarwara near Kanpur. The company, established by Mr. Irshad Mirza and Mr. Rashid Mirza, was then called 'Mirza Tanners Private Limited'. During this phase, Mirza took a significant leap, by venturing into newer areas which were extensions of its existing competencies. The global shoe market was then looking upon outsourcing of leather footwear in a big way. To take advantage of this opportunity, Mirza diversified into manufacturing of shoes. Very swiftly, four state-of-the-art manufacturing units were setup at Unnao and Noida.
