Products to be Displayed :

Footwear Soles, TR & Rubber Sheets

Brief History :

In the brief history of renaissance of the footwear industry in India, Enkay Rubber Group has contributed in a small way towards its ascent as a significant component manufacturing company upgrading itself by consistently achieving the quality, finish and all the parameters vis-à-vis Italians at much lower prices and making it available at customer's doorstep. Over the period of more than 20 years of its existence, experience and technical ability, Enkay has tried to learn the process of development, both- in terms of accuracy as well as speed. Moulds are being made working closely with buyer's designers/range builders to convert their idea(s) into their sole while tuning the design with respect to moulding for the particular material. Having PU, TPU, Rubber & TR manufacturing facilities we are now able to make sole in combination material like TPU-PU, Rubber-PU and TR-PU. Soon we will be announcing the launch of state of the art EVA soles to compete with the best in the industry. Enkay has always been a regular participant of various Domestic & International Fairs viz Lineapelle-Milan, Cremona-Bologna, Leathertech-Bangladesh & Sri Lanka, IILF-Chennai & AFMEC-Agra. To summarize it could be said that over the years, Enkay has tamed the technology to be transfused with its creativity to achieve its glorious principles of Reliability, Efficiency, Quality and Customer Service at affordable prices.
