Brief History of the company :

Alig Tannery was founded in the year 1969 as a family business and manufacturer of Vegetable Tanned Sole Leather, Alig has grown to be one of the most prestigious manufacturers from North India with 4 leather manufacturing units & 2 Shoe Units. Alig International initiated the production of Chrome tanned leather leading to expansion of two additional units in Kanpur area. Relentless focus on research and development (R&D) led to establishment of comprehensive leather and shoe centralized Q.C Lab and R&D Cell, thus achieving ISO 9001 Certification. In the year 2001, Alig Tannery entered into the Upholstery sector. A new state of the art finishing unit was setup at Kanpur area and an expansion unit at Leather Technology Park, Banther. With 3rd Generation joining business, Alig Fashion a project with a vision to become India's most reputed Shoe Manufacturer was established. Today, Alig group continues to strive hard to remain India's Top quality manufacturer in its various sectors, focusing strongly on its R&D to fuel its growth and competitiveness.

Finished Leather

Main Markets:

Hong Kong

Annual Production Capacity :

Finished Leather 6,00,000 Sq.Ft.

Brief History of the company :

We are a 65 year old tannery based in Ranipet ,Tamil Nadu , India specializing in the production of cow and buffalo articles of finished leather. Ours is a complete raw to finished leather manufacturing facility spread over 5 acres of land. Our facility also includes a full veg leather (East India Tanning) facility producing leather in pits in a eco friendly way. Our tannery also includes a modern beam house, dye house and finishing facilities.

Articles/raw materials : We produce both domestic and imported raw materials for cow articles. Cow crust calf is a repolishable article mainly used for shoe upper and is available in sizes 5-12 and 12 up in full hides in thickness 0.7/0.9 mm and in thickness 0.9/1.1 mm. This is a burnishable finish wherein there is scope for polishing once the shoe is made. We produce this article both in domestic and imported raw material. Cow fullard is a natural milled type of leather available as either fully finished or with a repolishable finish depending on the needs of the customer. We produce this article in two sizes namely size 3/5 ft in thickness 0.6/0.8mm, and size 5/10 ft in thickness 0.7/0.9mm. We also offer this article in a full veg tanned process known as "VEGATA" with polished effect. Fullard article is used both for the production of leather goods and shoes. Cow Deer Tan is available both in natural milled finish and printed milled finish depending on the clients needs. We produce this article both in hides and sides , in thickness varing from 1.0mm to 1.6 mm in big sizes. This article is fully finished and is predominantly used by bag manufacturers. Cow Joy is a haircelled economy upper available in both full grain and corrected grain finishes in thickness 1.1/1.3 mm and in hides and sides.

Globe Group has come a long way in manufacturing & marketing diverse range of leather, leather products & bonded leather crossing many obstacles to become a hub of leather products industry in India. The industry is established since 1970, by Mr.Malik Karamatullah, founder of the industry who gave start to Bonded Leather with the idea to regenerate leather, with sheer hard work & futuristic vision that is the reason why the industry has become the one of largest manufacturer of Insole leather board for footwear industries in India. Later his son Mr. Malik Barkatullah and grandson Mr.Malik Kalimullah joined the industries and worked together with new modern machinery and technology to develop finished bonded leather, as a replacement of leather for leathers goods and achieve tremendous success as a result now the industry has successfully expanded into three units at different locations. The main vision of Globe Group is to develop a successful and dedicated industry for manufacturing & marketing wide range of cost effective and latest brands of highest quality leather & leather products, spreading its network to remote places in India and abroad to cater to the needs of its esteemed customers. With the above vision Globe Group aims to create a niche for itself in the leather & leather products industry not only in India but throughout the globe with strong bonds with the customers. That's why we say "GLOBLIZING PERFECTION".

Mr. Asfand Akhtar is the Managing Person of our concern. M/s Omega International was incorporated in the year 1998 and since then we are manufacturing quality leathers. Our Founder has put a lots of hard work in this organization and made this as one of the largest exporter of Upholstery Leather. In addition to the upholstery leather we also deals in Automotive Leather, Industrial leather, Fancy leather, Belt Leather etc. We are continuously exporting different types of quality leathers to the whole continent since last 16 Years. Currently we are exporting our leather to the following countries: • Italy • China • Vietnam • Spain • New Zealand • France We are into this business since last 25 years. Currently we are enjoying good reputation in the European market. The raw hides being used for making leather is from the finest quality of Indian buffalo. The chemical used for tanning and dyeing of the hides is used as per the strict European reach norms with all standards of quality & safety. We use only Italian tannery machines to manufacture our quality leathers. Currently we are having a Complete production line From Cartigliano Italy & some machines from Bauce SRL Italy. Our huge staff is dedicated to the chemical laboratories which regularly run all chemical & physical tests to have strict control over the quality of our products.

Brief History of the company :

S.A.Abdul Azeez & Co was established in the year 1965 with a vision and mission to be the leader in the Leather processing industry. The company once incorporated had constant growth in revenue and rolled out its first ever manufacturing unit in 1991. Due to the Herculean work of the team the company added its second manufacturing unit in 1992 and multiplied its production manifold. Due to the continuous growth in business and the management's vision to achieve greater heights the company started its finished leather business in 2005. Now the company is recognized as a giant in the leather processing industry with an annual turnover of over Rs. 30 crores. With the company's experience over a span of 45 years of business ventures and the company's roots well spread out, an advanced manufacturing unit with state of the art manufacturing facility is under construction since January this year. It is envisaged that shortly the company will be able to cater to all major demands of the leather industry by processing the finest quality of finished leather.

Finished Leather & Leather (Shoe/Boot) Upper

Main Markets :

Europe, Far-East, America, Africa, Australia & Asia

Annual Production Capacity :

Finished Leather - 150 Lakh Sq.Ft.

Leather Shoe Uppers - 12 Lakh Pairs

Brief History of the company :

We started operations in the city of Kanpur to produce & market Finished Leather for the Domestic Shoe Industry. In a very short duration company made its mark in domestic market & SABA EXPORTS became a brand of Producing & Supplying quality Finished Leather. The Company was growing as each day passed and saw a phenomenal growth in production & customers and its name as a reliable quality leather supplier. In 2002 company built a new tannery which was dedicated to the Export market and started exporting its Finished Leather to the Far East Market. And in next few years this small industry took shape of a well recognized Manufacturing & Export House catering to the demands of Global Leather Industry.

Annual Production Capacity :

Finished Leather - 10 Million Sq.Ft.

Brief History of the company :

It was 9th April, 1946 which marked the dawn of a new era in the history of Indian leather industry, it was the day when a person, meager in resources but high in ambition established a small tannery in the north city of Kanpur, With his visionary Skills and farsightedness, this austere person understood the winds of change and opted for a new venture, i.e. from family business of Trading to Manufacturing. Today, all Super Group companies owe their entire success achieved over the last 60 years to this noble soul. Mr. Choudhry Mohammad Amin and his only son Mr. Choudhry Ehsan Kareem. These two illustrious gentlemen were the grandfather and father, respectively of the Managing Director of the company Super Shoes Limited - VEQARUL AMIN. Today, he manage this state-of-the-art new leather processing (capacity: 1.5 million sq. ft. per month) and shoe manufacturing plant (capacity: 3000 prs. Per day) located in the town of Unnao at Leather Technology Park, especially developed by the state government – Uttar Pradesh .This industrial park is equipped with the most modern Common Effluent Treatment plant with totally secured solid waste disposal site.

Brief History of the company :

Established in the year 1902 and named after the founder (Mr. W.B. Shewan - an Englishman by birth) Shewan Tannery has been a pioneer unit in the production of Tanned leather. The Tannery was taken over by Late Mr. Ehsan Ul Haq, founder Director and Chairman of The Constructions & Industries Pvt. Ltd. in 1947 and since then has been run by the family generations. With change in time and the market requirement, Shewan tannery stepped into manufacturing wide range of Chrome tanned leather since Early 1970's. From vegetable tanned leather producing unit earlier on, Shewan Tannery has evolved into a full-fledged modern Chrome Tanning unit having a vast product line expanding to goods and shoes etc. Even today, the Tannery is dedicated to the true cause of its establishment, i.e. producing high quality leather and leather articles and providing complete customer satisfaction.
